## OVERSIZE

Made from bronze or carbon steel, this product line responds to the growing demand for custom caskets throughout North America.

### Bronze

- Bronze is recognized for its exceptional properties and superior resistance.
- Its inestimable beauty stands the test of time.

### Carbon Steel

- This is steel to which we have added carbon. Generally the proportion of carbon varies between 0.6% and 1.0%. This is the most common type of steel produced.
- This line of products includes caskets of many different lengths and widths.
